INTERNSHIPS

1. MERN Stack - Channel BTech 2023

Successfully completed the Full-Stack Web Development internship with a solid foundation in front-end and back-end technologies. The training experience helped to equip with the skills to contribute effectively to full-stack development projects in a professional setting.

2. MERN Stack Advanced - The Better Tomorrow 2023

Had the invaluable opportunity to delve into the world of full-stack web development. With guidance from senior developers, learnt advanced concepts and to integrate an existing API with frontend.

PROJECTS

CodeQuest 2024

A coding platform where users can solve problems, participate in contests individually as well as forming teams. Supports i18n features. Used firebase in database and authentication

[Visit here](#)

Package Hub 2024

A command-line interface tool that helps developers quickly set up and scaffold projects by selecting packages from a curated list. Also it provides a list of installed packages with installed and current version which can be selected and deleted easily.

E-Commerce Website 2023

Developed a comprehensive eCommerce website providing users with a seamless online shopping experience. Implemented secure user authentication features. Established role-based access control for administrators and customers.
